Training
Located at:
Westchester PD
9577 Beckett Rd.
Westchester, Ohio
45069

If you no longer wish
to receive training
announcements,
please e-mail
otarainfo@gmail.com

Topics covered in the class will include:

- Evaluate Laser scanners vs total stations, etc.
- Best ways to set up scanner in complicated scene
- (practical exercise) Set up scene and implement best practices
- Creating accurate exhibits from point clouds (hands-on)
- Exporting point cloud to Reality and FARO Zone 3D
- Working in common diagramming and animation software

Items needed to attend class include:

* Laptop with FARO Scene software and FARO Reality, Zone 3D or similar software that permits use of point clouds.

This workshop is intended for those that have been using scanner point clouds and would like to sharpen their skills in preparing the point cloud for court presentation. For further information contact Lt. Steve Ashton at (513) 240-4887 or email at steve@otara.org
